

**CELEBRATING 27 YEARS!!!**

**A HOPE FOR SUSTAINABILITY through the previous recipients of MMS**

**-KMSYA Kyema Mustard Seed Young Adults.**

KMSYA themselves are keen to help more orphans benefit from foster care and education -

- Since February 2019, Sugar growing and land purchase for building rental property as income generation to continue the project as Meltham MS withdraws in its current form at end of 2023.
- KMSYA and KMS (total 16 hectares) current sugar planting will be harvested for second and third time in 2023.

A REMINDER that all MMS orphans are fostered by relatives - KINDRED FOSTER CARE. This ethos is promoted throughout the world as the best care for orphaned children. Being cared for in their own culture, in their own environment, among people who hopefully best understand them and their needs.

Since 1996, 52 young adults have progressed through Mustard Seed. Some attained a degree, others a diploma or higher education certificate, all some better quality of education than they could have hoped to have. Some have excellent jobs, sadly some still seeking work. Unemployment is extremely high in Uganda, the effects of Covid further devastating job prospects. Currently there are 27 children in the project supported at various levels of education.

Please make the walk a family outing or sponsor a walker to raise much-needed funds to help these YOUNG ADULTS build their **OWN FUTURE.**
